

OUR ASPIRE 2045  
**SUSTAINABILITY  
STRATEGY**

I am excited to share with you SoCalGas' recently released [\*\*ASPIRE 2045 Sustainability Strategy\*\*](#), the next step in [\*\*our mission\*\*](#) to building the cleanest, safest, and most innovative energy company in North America.

Last year, SoCalGas made a [\*\*Climate Commitment\*\*](#) to strive to achieve net-zero greenhouse gas emissions in its operations and delivery of energy by 2045. SoCalGas continued to build on this promise by releasing a peer reviewed [\*\*study\*\*](#) showing how repurposing existing gas infrastructure to deliver clean fuels and manage carbon to help California reach its 2045 carbon neutrality goal more affordably and with less risk than other pathways.

Our **ASPIRE 2045 Sustainability Strategy** is a broader set of goals and strategies that speak to the environmental health, social equity, and wellbeing in the workplace and communities that help to drive better business outcomes and build stronger and more resilient communities. The strategy includes five focus areas:

1. Accelerating the Transition of Clean Energy
2. Protecting the Climate and Improving Air Quality in our Communities
3. Increasing Clean Energy Access and Affordability
4. Advancing a Diverse, Equitable, and Inclusive Culture, and
5. Achieving World-Class Safety.

Our ongoing journey towards being a sustainable supporting the health, safety, and wellbeing of the communities we serve is best-accomplished with collaboration, support, and input from

partners like you. Together, we can achieve the long-term goals of meeting local and state climate objectives and in building a resilient and reliable energy network for our communities.
