

How do taxes fit into your retirement planning?

Learn how to help reduce the effect taxes may have on your retirement income.

Retirement isn't what it used to be—especially with people generally living longer and spending more of their lives as retirees. With fewer companies offering pensions, and Social Security facing an uncertain future, the way we fund our retirement is changing, too.

And tax rates? While they may be at historic lows now, there's no telling where they'll be in the future and how they'll impact your retirement income.

So, how can you keep more of the savings you've worked a lifetime to enjoy?

Join us for our free Tax Diversification Seminar, where you'll learn:

- What impact taxes can have on your retirement lifestyle.
- Why you should consider tax diversifying your retirement portfolio.
- How life insurance may help provide tax-free income for your future retirement, while providing valuable life insurance protection during your working years.*

Date: Wednesday, February 9th, 2022

Time: 6:30pm PDT - 7:30pm PDT

Location: Zoom Webinar
