# FERTILITY PRESERVATION IN GYNECOLOGIC CANCERS

Fertility preservation in the young cancer survivor is recognized as a key survivorship issue as the diagnosis and treatment of cancer have important implications for a woman's fertility potential and quality of life. This webinar will serve as a broad review of fertility-sparing surgical approaches, as well as established and emerging strategies for fertility preservation in women with gynecologic cancer.

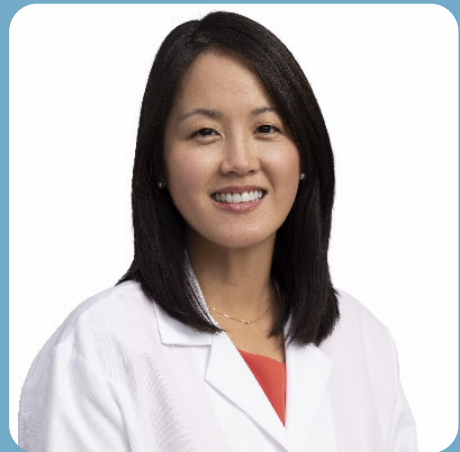

**FRIDAY, MARCH 4**  
**12:00-1:00 PM PT**
