

Backyard and Worm Composting

Saturday • February 10, 2024 • 12 - 1:30 p.m.

WORKSHOP

This free in-person workshop teaches residents the practice of backyard and worm composting. Plus delve into other aspects of smart gardening: water conservation, grass-cycling, and edible gardening. Learn how to create a nutrient-rich compost and other techniques to enhance your home and garden. No reservation needed.

Compost bins will be available for purchase at a discount price after you attend the workshop.

\$40 Backyard Compost Bin

\$65 (includes worms) Worm Compost Bin
